COMMERCIAL INTELLIGENCE

THURSDAY EVENING, JULY 31.

CONSOLS in London are still quoted at 100⅞, and French Rentes in Paris at 108½, but Rupee Paper is ⅛ higher, whilst the Indian Sterling Loan is ⅛ lower. Chartered and Chartered Mercantile Bank shares both come 10s. higher.

Seeds and Wheat are reported unchanged.

COTTON advices are somewhat contradictory. The Liverpool market is reported as closing firm, with an advance of 1-64d. to 1-32d. in Americans to arrive, but the day's sales are only estimated at 8,000 bales, and from New York futures come 5 points lower at 10·49 cents. for November. It is evident that both "bulls" and "bears" are chary about committing themselves to a very decided line of action, pending fuller information regarding the American crop, but the August Bureau report will probably induce one side or other to adopt a distinct policy.

In Bombay the market for ready cotton continues quite at a standstill, and there is nothing or next to nothing doing except the daily purchases of the local mills. For future delivery, too, things remain in about the same position, sellers not caring about going further unless at higher rates than those last paid, whilst buyers won't pay an advance.

FREIGHTS are the turn quieter again to-day. Rates have not undergone any change, but shipowners have shown less disposition to book.

IMPORTS.—Piece-goods are quieter. Prices are not any lower, but there is less disposition to hold off again on the part of buyers, and we may possibly see a slacker time until after the Cocoanut holiday. Coals are steady but quite unchanged.

EXCHANGE.—The market has been firm but unchanged at yesterday's rates, say :—

Bank Bills on demand	.....	1s. 7 9-16d. per rupee.
Do. Telegraphic	.....	1s. 7 17-32d. "
Do. Three months' sight	.....	1s. 7 11-16d. "
Credits	do. do.	1s. 7 25-32d. "
Francs	do. do.	Fcs. 2·04 to 1 "

At the biddings for Councils in London yesterday Reuter says Rs. 15,20,000 in bills were placed, at 1s. 7¼d. and 7 lacs telegraphic at 1s. 7 9-16d.' but private messages report a considerably larger amount of the latter. The rate for telegraphic shows an advance of 1-32d. on last week, but it was quite anticipated, and had been already discounted. Bar Silver Reuter now quotes at 50⅝d. per ounce as advised by some private messages of the previous day. The shipment advised for this side are £40,000 for Bombay, and £70,000 for Calcutta in Silver, and £70,000 in gold for Bombay.

GOVERNMENT PAPER has been quiet to-day at Rs. 99 15-16d. to par for Fours, and Rs. 102⅜d. to ¾d. for Fours-and-a-half.

SHARES.—Mill shares are in some cases the turn firmer, and partially Rs. 5 higher. Port Cannings have receded to Rs. 340. Other things are quite unmoved, and there is no symptom of speculation about.

THE BENGAL GOVERNMENT AND THE CALCUTTA MUNICIPALITY.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, JULY 31.

Several resolutions appear on the notice paper of the Municipal Commissioners' meeting to-day expressing regret at the Lieutenant-Governor's attitude towards the Municipality, and their inability to concur in the appointment of the Commission proposed by Government. The following resolution is to be moved by Mr. Gasper:—"That having regard to the facts that the Commission which it is proposed by the Government to appoint is one not provided for by the law under which the Municipality works, and is an infraction of the constitutional rights of the Municipality as defined in Act IV. of 1876 and its amending Acts, and also that it is put forward under the menace of further action being taken unless the Commissioners consent to its appointment, this meeting regrets that it is unable to comply with the request contained in the letter of Mr. Macaulay of the 16th July instant, namely, to nominate two Commissioners to sit as members representing the Commissioners on the proposed Commission."

The Chairman is to move, in continuation of such other resolutions as may be carried:—"That the Commissioners fully recognise the duty imposed upon them by the exceptional prevalence of cholera both in India and elsewhere during the last two years, of making special exertions to reduce its ravages to a minimum in this city. They therfore call upon the Committee appointed at the last meeting and the Bustee Committee to redouble their efforts to remove as speedily as possible all sources of disease poisoned out of them by their Health Officer. If funds at their disposal prove insufficient to carry out any needful reform, they should promptly apply for extra grants."

Finally, Dr. Lallmadub Mookerjee will move that a small Committee of the following members be appointed for the purpose of framing a reply to His Honour on the lines of the foregoing resolutions, and to carry on all further correspondence on the subject:—Baboo Kally Nath Mitter, Baboo Soorendro Nath Bannerjee, Baboo Judoolall Mullick, Mr. Hart, Moulvie Seraj-ul-Islam, and the Chairman.

THE MUNICIPAL CORPORATION AND THE GOVERNMENT.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, JULY 31.

The Corporation had a lively meeting this afternoon on the subject of Government's "wigging" letters and the Government proposal to take the work out of the hands of the Commissioners by the appointment of a Commission. Mr. Buckland, C.S., moved a resolution in favour of Government action, and a young native barrister, Mr. Abdool Rahmon, seconded the motion in a speech which was calculated more to serve his opponents than his own cause. Mr. Gasper, barrister, Baboo Surendronath Banerjee, Baboo Kallymath Mitter, Mr. Sykes, Mr. Ledlie, and other speakers completely exposed the untenability of the Government's position, and Mr. Gasper declared the action of the Government quite illegal, and ventured to say that if the Corporation declined to accept the proposals, Mr. Rivers Thompson would reconsider the matter by the light of their explanations, and they would hear no more about having a Commission forced on them. Resolutions condemning the Government action and declining to co-operate by the appointment two Municipal Commissioners to the Commission proposed to be appointed by the Government were carried by 49 votes against 3.

An appeal filed by the Government of Bombay against a decision of Mr. C. F. H. Shaw, Session Judge of Belgaum, was heard before Mr. Justice West and Mr. Justice Nanabhai Haridas at the High Court on Wednesday last. In September, [illegible] Narayen, a police patel, was charged [illegible]Shaw with harbouring a proclaimed [illegible]annia Katti, on whose head a reward of Rs. 200 was set by the Revenue Commissioner, S.D., and with intentionally omitting to apprehend him. Channia Katti was a well-known wrestler, and had escaped from custody. He was proclaimed in the district, and a reward had been offered for his apprehension, dead or alive. Counsel for the defence urged that all the witnesses for the prosecution were participators in the harbouring of Channia Katti, and that although there was reason to suspect that the accused knew at least as much as other villagers, the evidence was not sufficient to sustain a conviction. The Session Judge, agreeing with one of the assessors, acquitted the accused, and ordered him to be discharged. From that decision Government appealed to the High Court on the ground, among others, that the acquittal on some of the charges was opposed even to the findings recorded by Mr. Shaw, who was in error in not examining all the witnesses sent up by the committing magistrate. Their lordships, after hearing the arguments of counsel, have ordered the case to be sent back to Mr. Shaw for further evidence being received, and then to be returned to the High Court.

YESTERDAY the Calcutta mail arrived at Boreebunder several hours behind time, having been delayed *en route* by stress of weather up-country.

TO-DAY the East Deccan line of the Southern Mahratta Railways between Hutgi and Gadag, a distance of 173 miles, will be opened for goods traffic. There will be no public ceremony of any kind.

THE Bombay Government are again inviting tenders for the purchase, on lease for 999 years, of eleven plots of vacant land near the Wodehouse Bridge, Colaba.

CAPTAIN E. C. HART, R. E., who has been brought on the strength of the Public Works Department, has been appointed Executive Engineer, Khandesh, relieving Mr. D. Rutherford, who has been appointed Executive Engineer, Sholapore.

MR. J. NUGENT, Secretary to the Government in the Revenue, Financial, and General Department, takes privilege leave from the 2nd Sept., for three months. Mr. Monteath, the Under-Secretary, will act for Mr. Nugent while he is away, and Mr. W. P. Symonds will act as Under-Secretary.

THE election to the Munguldas Nathoobhoy Travelling Fellowship in connection with the Bombay University will take place on the 29th inst.

LOCUSTS are reported in some of the villages in the Satara district. Young locusts have also appeared in Songad near Khandesh.

THE Vehar lake on the 25th ult. contained 53·80 feet of water after a total rainfall up to date of 38·25 inches against 50·70 feet on the corresponding day of last year, after a rainfall of 57·96 inches. The height of the water in the Tulsi lake was 39·90 feet, or ten feet less than on the corresponding day twelve months ago.

SEVERAL appointments have recently been made in the Political Department, Bombay Government. On the 13th Colonel Forteath received charge of the office of Political Resident, at Aden, from Major Hunter, the latter officer, who was appointed to officiate during the absence of General Blair, having gone on a mission to the Somali coast. Lieutenant F. R. H. Chapman, of the Bombay Staff Corps, has received the appointment of Assistant to the Political Agent, Southern Maratha Country, in charge of the Chief of Miraj; and Mr. P. V. FitzGerald has been appointed to be Assistant to the Political Agent, Kolhapore and Southern Maratha Country, with charge of His Highness the Rajah of Kolhapore, retaining a lien on his appointment as fourth assistant to the Political Agent in Kattywar.

THE health of Bombay continues to be in a very satisfactory condition. From the tabular returns prepared by Dr. Weir, the health officer, it appears that the death-rate for the week ending the 29th ult. was 25·81, against 38·16 for the corresponding week of last year, and 34·54 which was the mean of the corresponding week of the last five years. As compared with the corresponding week of last year, a large decrease in the number of deaths is observable under nearly all important heads of disease. While there was one death from cholera during the week just ended, there were 101 fatal cases last year. Again, the number of deaths from fever during the past week was 34 less than in the corresponding week of last year. On the other hand, there is a small increase observable in the number of deaths from small-pox. There were also five fatal cases of measles.

THE subject selected by the Syndicate of the Bombay University for the Kharsandas Mulji prize for 1885 is as follows:—"The position of Indian women as presented in the heroic poems, contrasted with their position in modern times." The Khandas Mulji prize consists of books of the value of Rs. 100, and is awarded annually for the best English essay on some moral or social subject. The Syndicate make the reservation that the "prize shall not be awarded to any essay which, in the opinion of the judges, would not, when printed, be creditable to the University." The subject selected for the Dosabhoy Hormusjee Cama prize of 1885 is as follows:—"Is quarantine of advantage in preventing the spread of communicable diseases?" This prize consists of books of the value of Rs. 200, and is awarded annually for the best English essay on a medical subject. The subject selected for the Sir George Le Grand Jacob prize for next year is as follows:—"The Commerce of India as affected by British Rule." This prize, also consisting of books, is awarded annually for the best essay on some subject illustrating or relating to the advantages derived by India from British rule.

FROM the Bombay Presidency Season Reports for the week ending the 30th, it appears that rain has fallen throughout the Presidency. But while more rain is urgently needed in parts of Sholapore, Ahmednuggur, and Dharwar, it is complained that sowing operations have been retarded in parts of Surat and Broach owing to continuous rain, and, again, in parts of Poona, Satara, Kaladgi, and Belgaum from insufficient rain. Cholera has appeared in parts of twelve districts. In the city of Ahmedabad there were twenty cholera cases, fifteen of which were fatal. In Parantij, in the Ahmedabad district, there was one fatal case. In Kaira cholera was prevalent in four talukas, where there were 62 cases and 35 deaths. In the Broach district there were six fatal cholera cases. In the southern talukas of Kaladgi there were fourteen deaths; and in four talukas in Belgaum there were 202 cases and 99 deaths. Cholera was prevalent throughout the district of Dharwar, there being about 600 cases during the week, about 150 of which terminated fatally. One fatal case was imported from Dharwar into the Kanara district. Cholera is abating in the city of Baroda; during the week under report there were ten deaths.

Truth publishes the following details respecting the late cholera outbreak on board the Crocodile on her homeward voyage from Bombay:—"H.M.S. Crocodile, with troops, sailed from Bombay for Portsmouth last April. The day previous to the ship sailing three cases of true Asiatic cholera appeared on board her in Bombay harbour. One case was fatal, and the man was landed and buried at Bombay, but although he died in the afternoon, his funeral did not take place until the evening of the second day. The other two cases were landed for treatment at the cholera hospital. These cases were carefully concealed from the public, and the ship was sent on her voyage, with the result that fifteen more passengers died of cholera on the way home, and that quarantine has been established at all the Mediterranean ports."

THE Government of India proposes to hold a series of experiments of, and trials with, fibre-extracting machines in Calcutta, in September next. These will be in continuation of the trials which were held in February last with the fibre-extracting machines shown at the Calcutta Exhibition, and prizes of considerable value will be offered, though not to the extent of Rs. 50,000 as was formerly the case. The trials will be held under the superintendence of Mr. Liotard, of the Agricultural Department, and Dr. George King, Superintendent of the Botanical Gardens.

KHAN JEHAN KHAN, SINJIRANI, of Chakansat in Seistan, was at Quetta a week ago, as he could not make up his mind to trust his own and his father's affairs to the arbitration of the Amir, and hesitated to go to Kabul. The young chief of the Bezinjoes had arrived from Dab. He recently paid a visit to His Highness the Khan of Khelat, and became acquainted with a novel plan that Mir Khudadad Khan had hit upon to bring about a reduction of his army. The palace at Khelat is much in want of repairs: the Khan sent an order to the sepoys to repair it. The Jangi regiment was the one told off for the duty, but the men objected to do extra work without a promise of extra pay. They told His Highness that their pay was only six rupees a month, and that if he wanted them to become coolies they must receive extra pay in accordance with the custom of the English Government. This the Khan refused to give *in toto*, and it is said that many sepoys in consequence have taken their discharge. Probably, says an up-country paper, it is this occurrence which has given rise to recent stories that the Khan and his army were quarrelling.

AT Quetta the district officials are very busy just now in collecting supplies, &c., for the Zhob Valley expedition, which starts on or about the 15th September. On the 24th ult. Mr. O. T. Duke, the Political Agent of Kelat, was said to be at Mastung, where all the Sarawan and Jalawan Sirdars had assembled to meet him. He is settling some disputes by the provisions of the treaty of Mastung. Brigadier-General Sir O. V. Tanner was away on inspection duty. He had finished the inspection of the Sappers and Miners at Mangi, and was expected again in Quetta in two or three days. During the previous [illegible]

POSTAL NOTICE.—Mails for Singapore and Hongkong, per extra s.s. Bangalore, will be closed at the General Post Office, on Saturday, at 3 p.m.

LOST RING.—Govardundas Canjee, residing at Colbhat-road, reports that on the 27th July he dropped a gold ring set with a diamond, valued at Rs. 50, somewhere in front of his residence.

PUBLIC WORKS AT SHOLAPORE.—His Excellency the Governor-in-Council is pleased to order the resuscitation of the Public Works charge embracing the works in the Sholapore Collectorate, which was amalgamated with the Poona District in 1870.

THEFT.—Amroota Luximon, a labourer, was yesterday convicted by Mr. Dosabhoy Framjee of stealing four logs of wood, valued at Rs. 2-8, from the warehouse of Hajee Lalmahomed Abdool Rahimon, at Tank-bunder, on the night previous. He was sentenced to one day's imprisonment and to pay a fine of Rs. 10, or in default to undergo fourteen days' rigorous imprisonment.

A DEXTEROUS DIVER.—At about 2 o'clock on Wednesday afternoon a rupee was accidentally dropped into the sea by a Mooltanee while getting into a hired boat at the Apollo-bunder. Police Constable No. 1089 W. dived after it and brought it up. The owner of the money having left the place, the rupee was handed over to the Superintendent of the Water Police, who forwarded it to the office of the Commissioner of Police, at Byculla, yesterday.

STATEMENT OF SILVER BALANCE IN THE MINT.—The value of the silver in the Mint on the morning of the 21st July was Rs. 25,47,798; in addition silver received during the week, Rs. 3,66,577. New coin paid during the week, Rs. 2,00,000. The balance left was Rs. 27,14,375. There is in addition silver bullion worth Rs. 14,59,273 belonging to private individuals deposited in the Mint vaults, awaiting assay.

AN OLD THIEF.—Gunny Alli, a reputed thief, was charged with theft before Mr. C. P. Cooper yesterday. He was seen taking a large bundle from a godown by the owner's servant. He was caught and given over to a sepoy. In the bundle were two pillows, one sheet, and a broken vase. The accused admitted taking the things, but said they seemed to him *kutchra*, and not worth anything. When asked if he had been convicted before, accused admitted being only once in the old jail—but three times in the new one. His worship sentenced him to six months' hard labour.

NECESSITY KNOWS NO LAW.—Isaac Caithan, an ill-clad Goanese, was yesterday placed before Mr. C. P. Cooper, charged with the theft of a sheet. The complainant, a Bania grain-dealer, stated that the previous night he went to sleep, covered with a sheet, on about 10, in the verandah of a shop opposite to his own. It was raining very hard at the time. He awoke at about one in the morning, feeling cold; and on looking about for his sheet, he could not find it. He then saw a man running towards him with the accused. The man admitted taking the sheet. He had no other garments, and feeling cold and having nothing but the wet ground to lie on, took the sheet. He had admitted two previous convictions. His worship sentenced him to six months' rigorous imprisonment.

DEATH OF A WELL-KNOWN BANKER AT RUTLAM.—We regret to announce the death of Seith Lukshmi Chand, a well-known and respectable banker in Rutlam, who died of tetanus, on the 26th instant, at 1 p.m. The deceased gentleman was only 23 years old, has left a widow and a large circle of relatives and friends to mourn his premature death. He was brought up in the Rutlam Central College, where he acquired a fair knowledge of English, as well as of the vernacular languages. He was a managing member of the Rifa-i-am Society, and his loss is very much felt by the members of the club, and by the citizens. Situated as the mercantile community of Rutlam is, it can ill afford to lose such a valuable and promising member, who, if his life had been spared, would have done much to promote the cause of education and enlightenment among his confreres.

GAMBLING ON THE RAIN.—A man named Bajraj and seven other Marwarees were yesterday placed before Mr. C. P. Cooper, charged with disorderly behaviour in a public place. A police sepoy said the men were gambling on the rain. They were noisy. They are rain speculators, and when they noticed a large cloud in the sky they began shouting out. These men speculate in a curious manner. When a cloud is seen approaching, they bet among themselves as to whether it will rain or not within a given time. There is often a great deal of quarrelling and noise, and such was the case when these men were taken up. The men when charged gave many excuses. One said he was standing on the road when the sepoy came up to him, caught him by his neck, and took him up; another said he was eating sweets in a verandah at the time; a third said he had met a friend in the street whom he had not seen for a long time and was talking to him. His worship fined them eight annas each.

SUICIDE.—A coroner's inquest was held yesterday at Girgaum Back-road on the body of Dhunjeebhoy Eduljee, aged 62 years. Deceased was a country-liquor shop-keeper and resided at Parsiwada 1st street. On the night previous, after closing the liquor shop at Dongree, Nowrojee Hill, he handed a letter addressed to his son Bomonjee Dhunjeebhoy to his servant, asking him to deliver it at once. He then went to a well situated in Girgaum Back-road at the end of Parsiwada 1st street, and leaving his coat on the parapet of the well jumped in and was drowned. The son, on receiving his father's note, raised an alarm, and on going to the well found his father's coat lying on the wall. A Parsee jumped into the well and brought out the body. Life was extinct. It appears last June deceased received a notice from the Collector of Bombay that the three licences for the sale of country-liquor which he held would be stopped from the 1st August, and that if he wished he could have licences for the sale of English liquor. Deceased appeared to be very much depressed since he received that notice. The verdict was that the deceased had committed suicide.

ATTEMPTED THEFT AT THE PORT TRUST ESTATE.—On Wednesday morning Mr. Ainsworth, an assistant in the Traffic Department of the Port Trust, reported that a godown situated at the Carnac-bunder in the Port Trust Estate, and within the enclosure of a fence of wooden railings, the entrance to which is closed at 6 o'clock every evening, had been entered during the night previous. The locks of three cupboards and one box belonging to the Port Trust, and the locks of two other cupboards and one other box belonging to the Customs Department, were forced open, but nothing was abstracted. It appears this godown was locked by a Customs sepoy at 5 p.m. on the previous day, and the lock was found all right on the following Wednesday morning. The key of the godown was in the possession of the Customs authorities all night. How the godown was entered is a mystery.

BIRTHS AND DEATHS IN BOMBAY.—The total number of deaths registered during the week ended on Tuesday, 29th ult., was 430, being 2 less than in the previous week, and 3 more than the week ending 31st July, 1883, and 18 less than the mean of the corresponding period in the preceding five years. During the week 285 births were reported in the different districts of the city. The rate of mortality per 1,000 of population per annum was 25·81 calculated on the increase of population since 1881. There were 85 deaths from remittent fever, 26 less than in the previous week, and 22 less than in the same period last year. The deaths from diseases of the respiratory system, diarrhœa, and dysentery were last week 65, 23, and 13 respectively, as compared with 83, 50, and 15 in the same time last year. One death by cholera was registered last week, as compared with 101 at the same time last year.

ATTEMPTED HOUSEBREAKING.—Rowjee Rama, a suspicious character, was yesterday charged at the instance of Inspector Lyall, before Mr. Dosabhoy Framjee, with committing a trespass and attempting to break into the house of Abbajee Wassedew at Bholwada, Parell, on the night of the 29th July with intent to steal. The accused met Babajee Gunnoo, a mill hand near the house, while returning from his work, and asked him where the owner of the bungalow was. Babajee said that he had left the bungalow fifteen days ago, and that the house was in charge of a malee. Accused then went up to the house and pulled the lock on the door, which did not come out. He then pushed at a window of the house. Babajee acquainted his father, who went with him to the bungalow, and there saw the accused sitting on a bench in the verandah. On their asking what he wanted he said that he was an acquaintance of the malee of the bungalow. The malee, when interrogated, said the prisoner was a perfect stranger to him. The malee reported the matter to the police, who took the accused in custody. The prisoner pleaded not guilty, and stated that he went there in search of employment. On admitting a previous conviction for theft, he was sentenced to six months' rigorous imprisonment.

DEATHS IN GAOL.—A coroner's inquest was held yesterday at the Common Jail, Oomercarry, on the body of Deen Mahomed, *alias* Deen Mahomed Dey. Deceased was a prisoner in the jail, undergoing a term of two years' rigorous imprisonment. He was admitted on the 28th November, 1882, under a warrant signed by Mr. W. Webb, then Acting Presidency Magistrate. The deceased was frequently in the jail hospital during his term of imprisonment. On the 4th June last he was again admitted into the hospital suffering from dropsy and heart-disease, and complaining of difficulty of breathing. For the last four days he was unable to leave his bed, and died suddenly yesterday morning at 7 o'clock. The verdict was that the death of the deceased was caused by heart-disease.—An inquest was also held on the body of Vittoo wullad Darkoo. Deceased was a prisoner in the jail, under sentence of transportation for a period of seven years by Mr. Newnham, Session Judge of Poona. He was admitted on the 12th November last on transfer from Tanna. He was quite well when he came, and was employed as a convict warder. His age was about thirty-four years. On the 28th June last deceased was admitted into the jail hospital. He became very weak, and died at noon yesterday. The verdict was that death resulted from natural causes.

FOOTBALL.—The return match in football between Mr. Chance's Fifteen and the Medical team was played yesterday evening under unusually favourable circumstances. In the first half the Medical seemed to have it all their own way, scoring a goal within fifteen minutes play. The next fifteen minutes showed a fast and exciting game, when time was called. On resuming the game Chance's team played with the wind and secured a try and a touch-down, when the Medical with a rush took the ball up to their opponents' goal and compelled them to touch down. Chance's team, then playing with vigour, carried the ball back again to the Medical goal, when Macaulay ran in with the ball and secured a try. But this was disputed by the Medical umpire, on the ground that it was illegal, Macaulay at the time being off-side. The respective umpires being unable to come to a decision a good deal of unseemly wrangling occurred, when one of Chance's team, in a most irrelevant manner, applied a scurrilous epithet to the Medical team *en masse*. This destroyed the amicability of the game, and terminated it. On the Medical side Brooks, Greahy, Waite, Read, Ward, and Cabral contributed much to the eventual success of the game, while for their antagonists Lyle, Chance, Scott, Waller, and Macaulay played with spirit.

THEFT FROM THE PORT TRUSTEES.—Ramji Kanji, a muccadum's man, was yesterday placed before Mr. C. P. Cooper, charged with theft at the instance of the Port Trust Estate. Mr. Smith conducted the prosecution, and Mr. Sorabjee Bezonjee the defence. The accused obtained the key of a room at the bunder where damaged goods are kept. In this room there was lately placed a damaged case of white China copperware. He was seen by a Port Trust peon, who was in plain clothes, taking four small cups out of this case and putting them in a cask, over the mouth of which he placed a large deliver bag. The peon informed the chief sepoy. The matter was subsequently reported to Inspector Ingram, and he ordered the sepoy to divest himself of his uniform and take his stand with the peon at the shed. The accused was again seen to enter the room and take out of the cask four small cups. These he placed in his pockets, and over them he put some papers to conceal them. The accused then walked unconcernedly out. As he was going out of the dock gate, he was arrested, and on his person being searched the cups were found. The accused admitted his guilt, but pleaded that his worship would inflict a fine, as he had a young wife, who supported him. He was sent to jail. His worship said the ends of justice would be met if the accused was fined. He fined him Rs. 50, in default one week's rigorous imprisonment.

BOMBAY GYMKHANA.

TENT-PEGGING, TILTING AT THE RING, &c.

AFTER a heavy shower last evening, a good number turned out to tent-peg. Several tries were made by all who entered, but the best score in the first three tries was Slater's. The pegs, however, were bad, and many fair hits failed to draw. At tilting at the ring Stewart was most successful, only the ground prevented the horses getting on much pace. A polo-ball race followed, divided into two heats, Arthur winning the first, and Savile the second. In the final, between Arthur, Ker, Savile, and Sladen, Arthur got his ball home first, Sladen being close up, second.

THE PROPOSED ORIENTAL FIRE INSURANCE COMPANY.

ALLEGED BREACH OF CONTRACT.

THE suit brought by Mr. D. McLauchlan Slater to recover Rs. 23,934-10-6 from Mr. Premchund Roychund for a breach of contract by him was continued at the High Court yesterday, before Mr. Justice Hart.

The Hon. Mr. Farran, Advocate-General, and Mr. Inverarity, instructed by Messrs. Ardesheer and Hormusjee, appeared for the plaintiff; and the Hon. Mr. Budroodin and Mr. Jardine, instructed by Mr. Thakordas and Dhurumsey, represented the defendant.

Mr. Budroodin, in continuing his address for the defence, read some more extracts from the correspondence and the evidence taken in court to emphasize his contention that there was no agreement whatever between the parties to the suit. If, however, it were held that a contract did exist, the utmost that Mr. Slater could claim was such charges as printing and postage, &c. It would be absurd to suppose that Mr. Slater was entitled to all the damages which he imagined that he had sustained. But should he be held entitled to recover any, the court had to consider whether the damages were not too remote to have affected the plaintiff in any way. It was idle to urge that the company could have been floated but for the change effected in its constitution on the recommendation of Mr. Sedgwick because on Mr. Slater's own showing there was thereno probability of starting the company within anything like a reasonable space of time. A broker named Bapoojee Screwalla was employed at first on a certain commission to influence the shares of the company, as it was originally planned. Bapoojee did get a certain number of shares subscribed, and when he asked for his commission, he was told that he had failed to influence, at least, a thousand shares according to agreement, and was fore not entitled to any commission. Mr. Budroodin said it was simply a gratuitous assumption on the part of Mr. Slater that there was anything like a contract entered into between the parties; and when Bapoojee pressed his claim and followed it up with a Small Cause Court summons, the plaintiff had to compromise the suit by a payment of Rs. 50. In this connection he would have it borne in mind that Mr. Slater had denied in the witness box that a settlement had been come to. As there was no agreement in the first instance, so was there none in the second, and the latter that Mr. Premchund had elected to submit quietly to all sorts of pains and penalties, was purely imaginary. There was not a word in the correspondence nor any evidence of a word of mouth, which could be distorted into an agreement. Though Mr. Slater was to be the manager of the proposed company for a term of ten years, he calculated his damages on the loss of the estimated income for the first five years only. He said that he was to get a full commission on the nominal capital estimated at something like Rs. 50,000, but that he had of his own accord abandoned a considerable portion of the claim simply out of favour to Premchund. Counsel suggested that it was not the kindness of Mr. Slater, but the astounding and ridiculous nature of the claim that had evidently induced him to be comparatively moderate in his demand.

Mr. Premchund Roychund, being examined by Mr. Budroodin, confirmed what has been stated in the written statement as to the terms on which he agreed to get the shares subscribed. There was no contract and no stipulation as to the payment of any damages if he failed to get the shares in the market. The witness continued, "I have floated many companies and got lots of shares subscribed, except in the case of this unfortunate company." (A laugh.)

Q.—Well, never mind this company. Have the directors of various companies asked you to float their companies?

A.—Yes.

Q.—Have you ever in your life make yourself responsible for damages if the shares were not subscribed?

The question was objected to, and the objection was allowed.

Witness continued.—It is not usual for brokers to be held responsible for the subscription of shares on pain of penalties. I should heve had nothing whatever to do with this company, if they had attempted to hold me liable in any way. I had no direct agreement with Mr. Slater; I was to look to Mr. Sedgwick for the brokerage. I got many subscribers for the company, having received applications for over 500 shares. I cannot produce the applications, because they were lost by my clerk, Champsi. I tried hard, but could not influence any more shares, owing to the depressed state of the market at the time. I voluntarily promised in the middle of December to pay printing and postage charges, about Rs. 50 or Rs. 100, incurred by the plaintiff from the 25th August. Supposing I could not get, as was arranged on the 15th December, subscriptions for 125 shares by the 4th January, the whole concern was to collapse; but it is not true that I had held myself liable for damages or expenses. I was not so much anxious for the brokerage as I was for the success of the company. (A laugh.)

Q.—Well, Mr. Premchund you would perhaps, give the printing and postage charges as a moral claim?

A.—Not now that he has brought this suit against me. (Laughter.)

Cross-examined by the Advocate-General.—My business is with large capitalists as well as small merchants. I am a speculator, but my transactions are not now on the large scale that they were before. It would involve a great deal of time and trouble on the part of a broker to go about obtaining subscriptions for small shares. Personally I would have nothing whatever to do with small companies. I admit that the raising of the value of the shares from Rs. 200 to Rs. 4,000 each involves a complete alteration of the financial nature of the company, as well as of the character of the subscribers. Some time after the prospectus of the present company had been issued, the project of starting another such company was placed before the public. Mr. Nusserwanjee M. Petit is a director of the company, and I have received brokerage on the shares subscribed by my friends in that company. I did not undertake that the shares in Mr. Slater's company would be taken up in a fortnight; but I did say that I would try my best to get them subscribed within that period. Mr. Slater told me that the change in the value of the shares would put it out of his power to get subscriptions for a considerable number of shares.

Q.—You thought, Mr. Premchund, that if you got the shares subscribed in a fortnight you would get your brokerage very easily.

A.—Yes, as easily as Mr. Slater would have got his commission. (A laugh.) I and Sedgwick have been on good terms. If Mr. Sedgwick says that Mr. Slater held me responsible, should I fail in performing my promise, he must be mistaken. The statement is not correct. By the 15th December I got 60 or 70 subscribers.

Q.—Where are the names?

A.—They were in the book which was lost.

Q.—Is it your practice to lose the names of the applicants in this way?

A.—No. I showed to Sedgwick a list of the subscribers.

Q.—Did you lose them in any of the other companies you floated?

A.—No.

Q.—Can you then account for the letter in which Mr. Sedgwick writes to Mr. Slater that both he and John believed that you had no shares, and that you would long ago have produced the list, if you had got it?

A.—They may say so, but I did show the list to Mr. Sedgwick.

Q.—Did you produce any list at the meeting of the 15th December?

A.—I did not. There was a talk about the expenses, and I said that I would pay the printing and postage charges, which could not be more than Rs. 100.

Q.—I don't quite understand, Mr. Premchund, why you offered to pay this amount.

A.—Because Mr. Slater said he was in danger of losing his commission, after having worked so hard. It was a purely voluntary offer.

Q.—So Mr. John and Mr. Sedgwick are not speaking the truth, when they say you agreed to pay all the expenses?

A.—They must be mistaken, I dare say.

Q.—Had Mr. John in his hand the account of expenses incurred to that date?

A.—Yes.

Q.—Did you tell Mr. Bromley a few days ago that the reason you did not get subscription for the Oriental Fire Insurance Company was that Sedgwick and John were to get half the brokerage, without doing anything to earn it?

A.—No. What I did say to him was that instead of fighting out the case in the High Court, now was the time for floating the company.

Witness on being asked whether he had read or replied to certain letters which were placed in his hands, said he did not remember; whereupon Mr. Farran remarked that his memory appeared to be very short.

Q.—Did you ever furnish Mr. Slater with a list of the subscribers?

A.—I did not.

Re-examined by Mr. Jardine.—There is no truth in the suggestion that being concerned in another fire insurance company, I took no interest in Mr. Slater's company.

The case for the defence was here closed.

The Advocate-General then said that Mr. Slater's sole object in calling in the assistance of Premchund was to hasten the organization of the company. The formation of the company, according to the original plan, was only a question of time, and Mr. Slater's object in employing brokers at a high commission was to save time and trouble. Under the original arrangement, the broker Bapoojee was employed to get subscriptions for the company's shares, but he failed to get them to the extent promised by him. Though he had made a definite promise, it might not perhaps be regarded in the light of a binding contract. Mr. Slater said that Bapoojee having shown his regret for writing to him certain letters, he paid him Rs. 50 for his trouble. The correspondence did not in any way militate against Mr. Slater's good faith in his dealings with Bapoojee and afterwards with Premchund. The learned counsel was of opinion that his lordship would come to the conclusion that shares in the company, as originally constituted, were being subscribed for, and that in all probability the company would have been started about the time mentioned in the prospectus. The success of similar local companies rendered it extremely probable that the proposed company would also have been as great a success as Mr. Slater expected it to be. Mr. Slater was a man of great experience in business. He was at present managing a life insurance company with remarkable ability, and the army of agents whom he employed would have been of great service to him in getting out the fire company with every prospect of success, but entering into this arrangement they were not constituted. The contract between Mr. Slater and Mr. Sedgwick was quite distinct from that between Mr. Slater and Mr. Premchund. The defendant guaranteed that he would get the shares subscribed within a definite period, and he held himself liable if he failed to perform his promise for expenses and damages.

Mr. Farran's address was not finished when the court adjourned until to-day.

THE WIFE OF TWO HUSBANDS.

At the last Criminal Sessions of the High Court, Abai, woman, was charged with marrying another during the lifetime of a former husband, and was condemned by Mr. Justice Scott to one month's imprisonment. After passing sentence his lordship told the first husband, the prosecutor in the case, that he would be bound by law, as the second marriage had been declared null and void by the verdict of the jury, to maintain and protect his wife on her coming out of jail. The man professed to be surprised at the turn the result of the prosecution had taken. He informed his lordship that he could not take back a wife who had married another husband, and that, even if he were so inclined, the caste would not allow him to take her back under his protection, for the reason that the muccadum of the caste had given her sanction to the performance of the second marriage, which, therefore, in the eyes of all his castemen, was perfectly justifiable. His lordship told the man that, whatever force the customs and usages of his caste might carry in the caste, they could not over-ride the provisions of the Indian Penal Code, and that he should maintain his wife on her coming out of jail. Having worked out the sentence, Abai appeared before Mr. Justice Scott yesterday, saying that she had gone to her first husband, who, however, refused to maintain or to receive her at all. His lordship told her she must apply to a magistrate and obtain an order on her first husband for maintenance.

Later in the day Abai appeared before Mr. Cooper and stated that her husband would have nothing to do with her. She went to his house, but he said he would not take anything from her and would not even accept water at her hands, or eat the food she cooked, and turned her away. This was very hard. She had been punished by the High Court

date withdrawal of all the Chinese forces on the frontier of Tonquin. In order to avoid any misunderstanding on that point, a subsequent and unpublished Convention was drawn up to fix the date of the departure of each of the Chinese garrisons. It had been specially understood that the French troops should occupy Lang-son (Liang shan), Caobang and That-khe from the 6th June; this delay, however, was prolonged by General Millot in a spirit of conciliation, and it was not until the middle of June that the French column, which had orders to occupy Lang-son, left Hanoi. The column, which, we believe, was composed of three hundred men, plus a certain number of Tonquinese auxiliaries, had arrived at a three days' distance from Lang-son, and was advancing in all good faith in accordance with the terms of the Treaty, when it was suddenly attacked in a dangerous passage by a contingent of Chinese forces, estimated at from four to five thousand men at the lowest computation. The French troops, notwithstanding the suddenness of the onslaught, were able to keep their position, but lost seven of their number, forty others being wounded. Such are, we believe, the plain facts of this deplorable affair, and they may be left to speak for themselves. But the serious part of the business is yet to come. We thought at first that the *contretemps* had arisen from some most unfortunate misunderstanding, and fully expected—as we have stated above—that the Tsung-li Yamen would promptly disavow the action of the military commander who had so compromised so seriously the provisions of the Convention of Tientsin. We are assured, however, that such is not the case, and that the Chinese Government, so far from repudiating all connivance with the authors of this disastrous business, are now actually attempting to evade the Convention itself. This is a severe disappointment to us, who had augured so very differently and so very hopefully from the new departure in policy which we, in common with our correspondents, had believed to be a fact. Making the fullest allowance for the pressure brought to bear upon them by the Chauvinist party in the North, we can even now scarcely believe the rulers of China capable of assuming such heavy responsibilities, and of throwing themselves with light hearts into an undertaking which may bring such disastrous consequences upon the country. But the appointment of Admiral Courbet as Commander-in-Chief of the two French fleets in Chinese and Tonquinese waters may be held to indicate that the French Republic is resolved to have recourse, if need be, to the most energetic measures to obtain final and complete redress. The Admiral is expected here immediately, and is to confer with M. Patenotre upon the situation.

The *China Mail* of the 2nd July has the subjoined on the attack made by 7,000 Chinese soldiers, on 400 French, at or near Langson:—

Shortly after the arrangement of the convention between Captain Fournier and Li Hung Chang at Tientsin, General Millot saw the necessity of occupying some of the chief positions near the northern frontier of Tonquin and despatched a force of four hundred French troops and a few of the new Tonquinese militia from Hanoi for the purpose of occupying the important post of Langson, which is situated about eight miles only from the borders of Kwang-si. There is a comparatively good road from Bacninh for about 40 miles on the way to Langson, but after that the route passes through a very difficult and sterile country, following several valleys lying between bare mountains of moderate elevation. The difficulties of the route were well known to General Millot, who, after the capture of Bacninh, would only sanction the advance of General Negrier, with a force of about three thousand men, to a point about half way between Bacninh and Langson. Now, however, that no hostile force of Chinese were naturally expected to be encountered on that side the border, it was supposed that there would be no difficulties in the way beyond the ordinary labours of a march through a rough and inhospitable country. From the information we have received it would appear that the French column had gone considerably beyond the point reached by General Negrier in March last, and was very near Langson when it was attacked by a force of Chinese believed to number four to five thousand, who covered the hillsides, enclosing them in a narrow pass among the mountains. After a hardly contested fight the Chinese were for the time driven off, and messengers were at once dispatched to Hanoi with the intelligence. The French loss in the engagement is reported to be forty-five killed and sixty wounded. The loss inflicted on the enemy is unknown. The news of the attack reached Hanoi on the 21st or 22nd ult., and on the evening of the latter date General Negrier left Hanoi with a force of two thousand men, embarked on board all the available steam launches and light draft boats. His force would probably go as far as Bacnin by river and thence march overland toward Langson, as the branch of the Song-cau which runs for some distance in the direction of Langson is only navigable for boats drawing from two to three feet. A number of junks which were upon this stream carrying provisions and stores for the French troops have also, it is believed, fallen into the hands of the Chinese. The latest intelligence received in Haiphong from General Negrier was up to the 27th ult., and up to that time he had not found any traces of the detachment which had been attacked, nor had he ecountered any Chinese force. Grave fears are entertained as to the safety of the original expeditionary column, should the attack have been renewed. Cut off from their stores, in a barren and difficult country, it is quite possible they may have been utterly annihilated.

Writing under date of the 25th June, from Haiphong, the *Daily Press* correspondent says:—I must tell you first that the Commander-in-Chief had ordered a column, consisting of about 400 French and about 250 Tonquinese tirailleurs, to go north and occupy Langson. When the detachment was about a third of the way to their destination it was attacked by about 6,000 Chinese troops. The French force, when attacked, were in a very bad position, being in a valley surrounded by mountains, where it was impossible to get any cover. The expedition was under the command of Colonel Dugene, the officer who about twenty days previously had received three wounds in the attack on the Sontay Citadel. Hung Yen. The French were so completely ensnared that they suffered severely, and though they at length drove of their assailants they were left in a precarious situation. The official list of the losses sustained by the French is as follows:—5 officers and 40 rank and file killed; 75 soldiers wounded; 20 junks laden with provisions.

It is believed the latter have been destroyed by the Chinese and all on board killed, as no tidings of them have reached Haiphong. The remainder of the detachment are waiting for assistance from Hanoi, and are in a very critical position. They may indeed have all been destroyed by this time. The Chinese troops are now occupying the citadel of Langson. Every one unites in expressing the opinion that General Millot is not the man for the post of Commander-in-Chief. When he received the command Tonquin was nearly pacified; since he assumed it we have sustained two serious disasters. We all hope the command will be again entrusted to Admiral Courbet; that gallant sailor has done good work, and never loses sight of French interests. Had he retained the command this Langson affair would not have happened.

THE TRUTH ABOUT THE HESSE-KALOMINE MARRIAGE.

I HEAR from Germany that it is not expected that the Grand Duke of Hesse and Madame de Kalomine will obtain their divorce for at least a year to come. The legal authorities have not yet decided as to the tribunal before which the case must be tried; and as there are difficulties in the way of a speedy and successful termination to the affair in German courts it is in contemplation to take steps to obtain a divorce from a Russian judge, who would be more amenable to high influence. Baron Stark, the ex-Minister at Darmstadt, who celebrated the civil marriage, is seriously ill from worry, and has gone to Baden-Baden to recuperate. He has been most unfairly blamed for his part in the business. The truth is that on the afternoon of the Princess Victoria's marriage the Grand Duke sent for the Minister, who found him in a most agitated state. The Duke then announced his intention of marrying Madame de Kalomine within an hour. The Minister refused to assist him, and remonstrated in the strongest terms against the project, whereupon the Duke replied that he had given his solemn promise to marry the lady before twelve o'clock that night, and if he were made to break his word he would not survive the dishonour. He then produced a pistol from his pocket, and swore that he would shoot himself within the hour, unless the Minister agreed to marry him, for it appears that in Germany the civil marriage of the Sovereign must be celebrated by the Minister of State. The Duke had also intended to go through the religious ceremony, and he despatched an urgent summons to his principal chaplain to come instantly to the Schloss; but this divine had either received a hint that something unpleasant was impending, or else he gleaned the nature of the business for which he was wanted from the bearer of the summons, and he sent a message to say that he had gone into the country till the next day, and started instantly for Jugenheim, where he remained till the end of the week.

The marriage was celebrated at the house of the Prince of Isenburg, who has been on most intimate terms both with the Grand Duke and with Madame de Kalomine, and it is common talk at Darmstadt that it was mainly through his diplomacy that the affair was carried through. He has been rewarded for his pains by having every window in his house broken by the enraged mob. No sooner was the marriage over than the bridegroom's troubles recommenced. The Queen informed him that unless he agreed to accompany her to England and to separate then and there from his spouse, with the view of annulling the marriage as soon as possible, she would quit Darmstadt that very night; and the Crown Prince of Germany went off next day in high dudgeon, having previously intimated to his brother-in-law that, in future, they must be strangers unless he at once sent Madame de Kalomine about her business. The Emperor was furious not only from the considerations which animated his relative, but because he regarded it as a sort of treason for an officer in the German army to marry without having previously obtained his formal permission. The Grand Duke has, in fact, been quite cut by the German Court for the last two months. When he passed through Berlin on his way to Russia no attentions of any kind were paid him; and he was again ignored last week when he returned to his place in Silesia. There was not even an aide-de-camp at the station to greet him. The Queen found the money to pay of the "Grafin von Romrod."

Madame de Kalomine left Darmstadt the day after her marriage for Heidelberg, where she went to consult a celebrated physician, as she knew by way of being in delicate health for some time; but she was reassured by this gentleman, and returned to Darmstadt, when she found everything in confusion. After some stormy passages, she departed for Berlin; and, in the course of the next month, terms were arranged. It is no secret that the Grand Duke, who is as weak as he is amiable, has acted under strong pressure from his relatives. Had he been left alone, he would, no doubt, have lived in perfect amity with his wife, and if he abdicates (as he declared he would) people vow that they will yet come together again.—*Truth.*

Holloway's Pills.—The chief Wonder of modern times.—This incomparable medicine increases the appetite, strengthens the stomach, cleanses the liver, corrects biliousness, prevents flatulency, purifies the system, invigorates the nerves, and re-instates sound health. The enormous demand for these Pills throughout the globe astonishes every body, and a single trial convinces the most sceptical that no medicine equals Holloway's Pills in its ability to remove all complaints incidental to the human race. They are a blessing to the afflicted, and a boon to all that labour under internal or external disease. The purification of the blood, removal of all restraint from the secretive organs, and gentle aperitive action are the prolific sources of the extensive range of Holloway's Pills.
